

JCMS MySQL Converter

Where would I find more information on the JCMS MySQL Converter? [click here](#)

FAQ's:

1. After converting a JCMS v4.2.x database to MySQL, I can only add one mouse into JCMS. How do I fix?

1. This is a known issue that cropped up in JCMS 4.2 conversions from msAccess.
2. To fix: run a script which fixes the MySQL database.

instructions- [download this .zip file](#), and unzip the contents (jcms_db.4.2.1.update.mysql.sql).

run the script, by using this command at the command line:
`mysql -u root -p jcms_db < jcms_db.4.2.1.update.mysql.sql`
